

The Austria-Central Asia Centre for GIScience at the Kyrgyz State University of Construction, Transport and Architecture (KSUCTA), and the Centre for Geoinformatics (Z\_GIS), Salzburg University, Austria invite you to:

**The Sixth Central Asia GIS Conference - GISCA'12**  
**“GEOINFORMATION FOR LAND AND RESOURCE MANAGEMENT”**  
May 2-3, 2012, KSUCTA, Bishkek, Kyrgyzstan

The main objectives of this conference are to bring together GIS academics, researchers and practitioners in the Central Asian countries and encourage international cooperation and knowledge exchange in GIS education and application. It is the right place and time for GIS professionals and academics to think and keep up with the demand and development of the GI technology. The Organising committee invites you to actively participate and submit papers for the Sixth GIS Central Asia International Conference.

**Themes of the conference are:**

- GIS in Land Management
- GIS in Energy and Natural Resource Management
- GNSS technology for Central Asia
- Development of Spatial Data Infrastructures
- New trends and technologies in GIS&T
- International cooperation in teaching and use of GI technologies for land and resource management.

**Conference working languages:** English (main language) and Russian.

**Submission of contributions:**

- April 1 - Start of registration
- April 1 - Submission of abstracts (min 500 words)
- April 10 - Notification of acceptance
- April 25 - Camera-ready copy of full papers (see authoring instructions on the conference website!)
- May 30 – Publication of the GISCA'12 Conference Proceedings.

Pre-conference workshops on Geoinformation Education, GIS&T Applications and a Summer School for GIS MSc Students will be held in April 30 - May 5, 2012.

**GISCA'12 is organized with support from:**

- [Eurasia-Pacific Uninet](#) - a Network supporting contacts and scientific partnerships between Austrian universities and member institutions in Central Asia
- [Trimble Navigation International Ltd](#) - Enabling Productivity Through Innovation (other slogan - a World Leader in GNSS, Construction Lasers, Robotic Total Stations and Machine Control solutions) – ideas from Trimble!
- [TEMPUS Project](#) "Geoinformatics: Managing Energy, Resources, Environment - GEM"
- [SAFE Software](#) - The Spatial ETL Experts
